eachable moment can still
ccur.
Student is too upset for learning to occur
Safety of the student and others is the most important.
Student is too upset for learning to occur
Student able to process the events that occurred, but could re-escalate
Document ALE visit, monitor for safety (staff with student) Call family to notify (admin)
Student behavior continues in hallway or escalates to throwing items, spitting, hitting, kicking
Call admin for assistance, help Student to ALE (MANDT certified staff)
Document ALE visit for report later, monitor for safety (2nd staff with student) Admin:Call family to notify out of ALE
Student allows adults to talk or enter room without re-escalation
Student frustrated: Yelling, swearing. Will move to safe spot (in hallway)
Adults should stop ALL verbals. Switch personnel. Provide sensory tools to help prevent further escalation
Adults should limit verbals. Allow Student to complete tasks. Once completed return to safe spot, problem solve worksheet.
Student outside ALE, doing tasks to assess if ok to return to
Student in Green Zone
Adults should reinforce positive behaviors.
Adults should reinforce positive behaviors.
