

## LPS Weighted Grades

Lincoln Public Schools maintains a list of courses that are eligible for weighted credit. The courses have been reviewed by a district-wide committee of educators and determined to be of appropriate rigor in order to generate weighted credit. Mentored courses for highly gifted students, independent study courses, and classes of one do not generate weighted credit. If a student were to take the entire sequence of courses in a subject area, then the student could petition for weighted credit for a more advanced level college or university course. It would be the student's responsibility to provide information about the course content through documents such as the course description, course syllabus, and other information to be reviewed by the Curriculum department and/or the weighted grades committee.
