

Results of Remote Learning 21-22 Parent Survey

November 2020

Grade Level Bands

- Results are reported by grade level band based on answers to the question, “What grade level(s) will your student(s) attend next year (2021-22)? (Please select all that apply).”
- Parents with students at more than one level will be represented more than once in the charts.
- Parents that selected “I will not have a student in grades K-12 next year” were excluded from the charts.

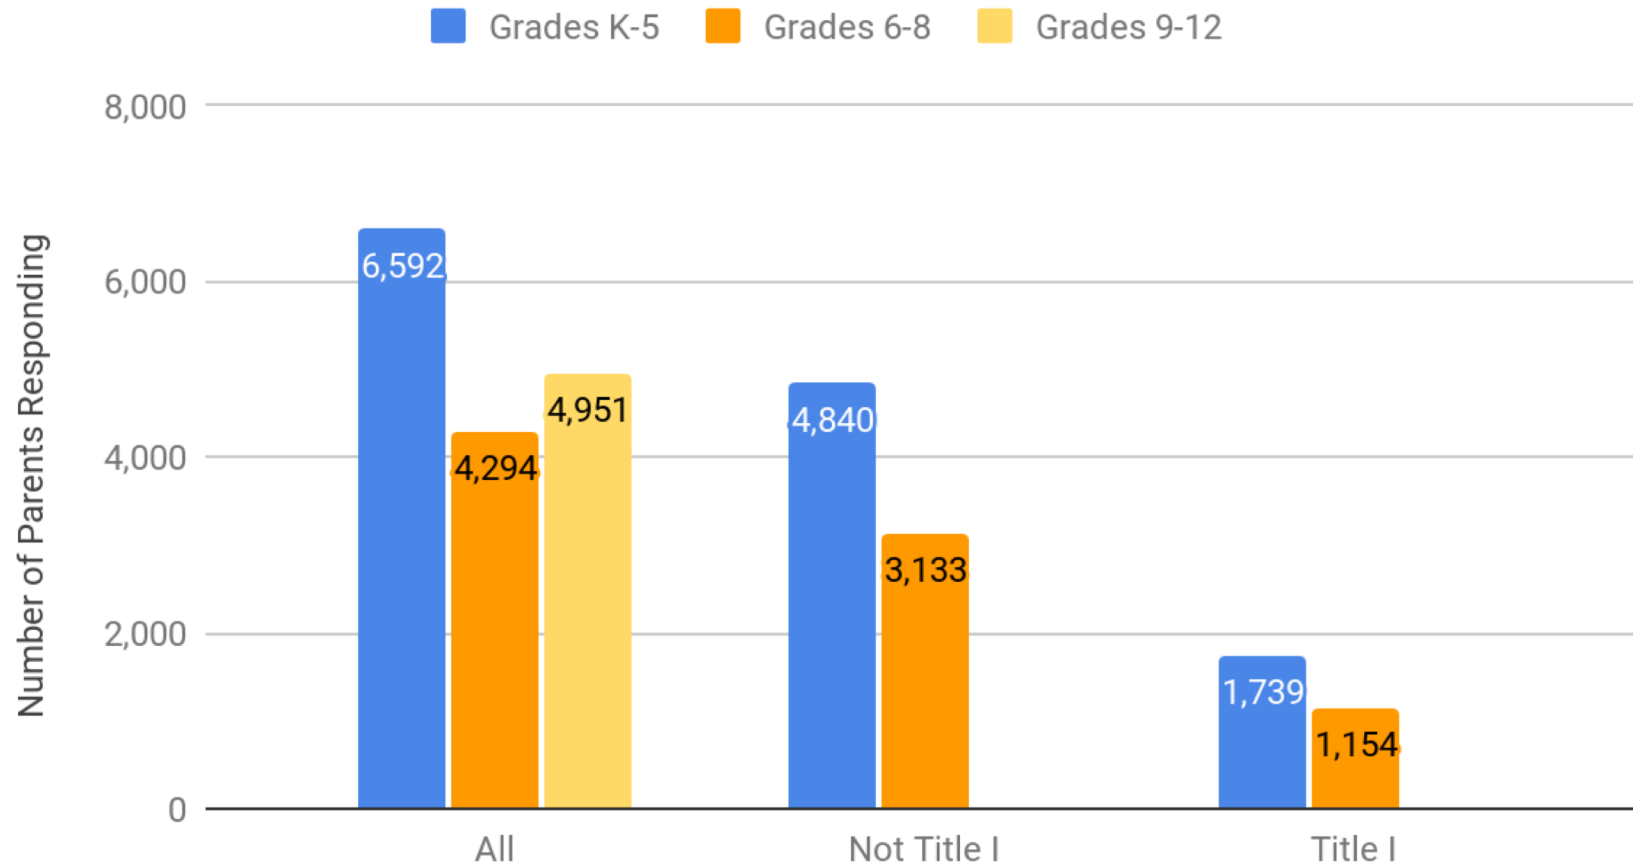

Participation

- 38,456 parents were sent the survey.
- 450 homeschool parents were sent the survey.
- 38,906 total surveys deployed.
- 12,569 responses, 32.3%

Calculation of Title I Status

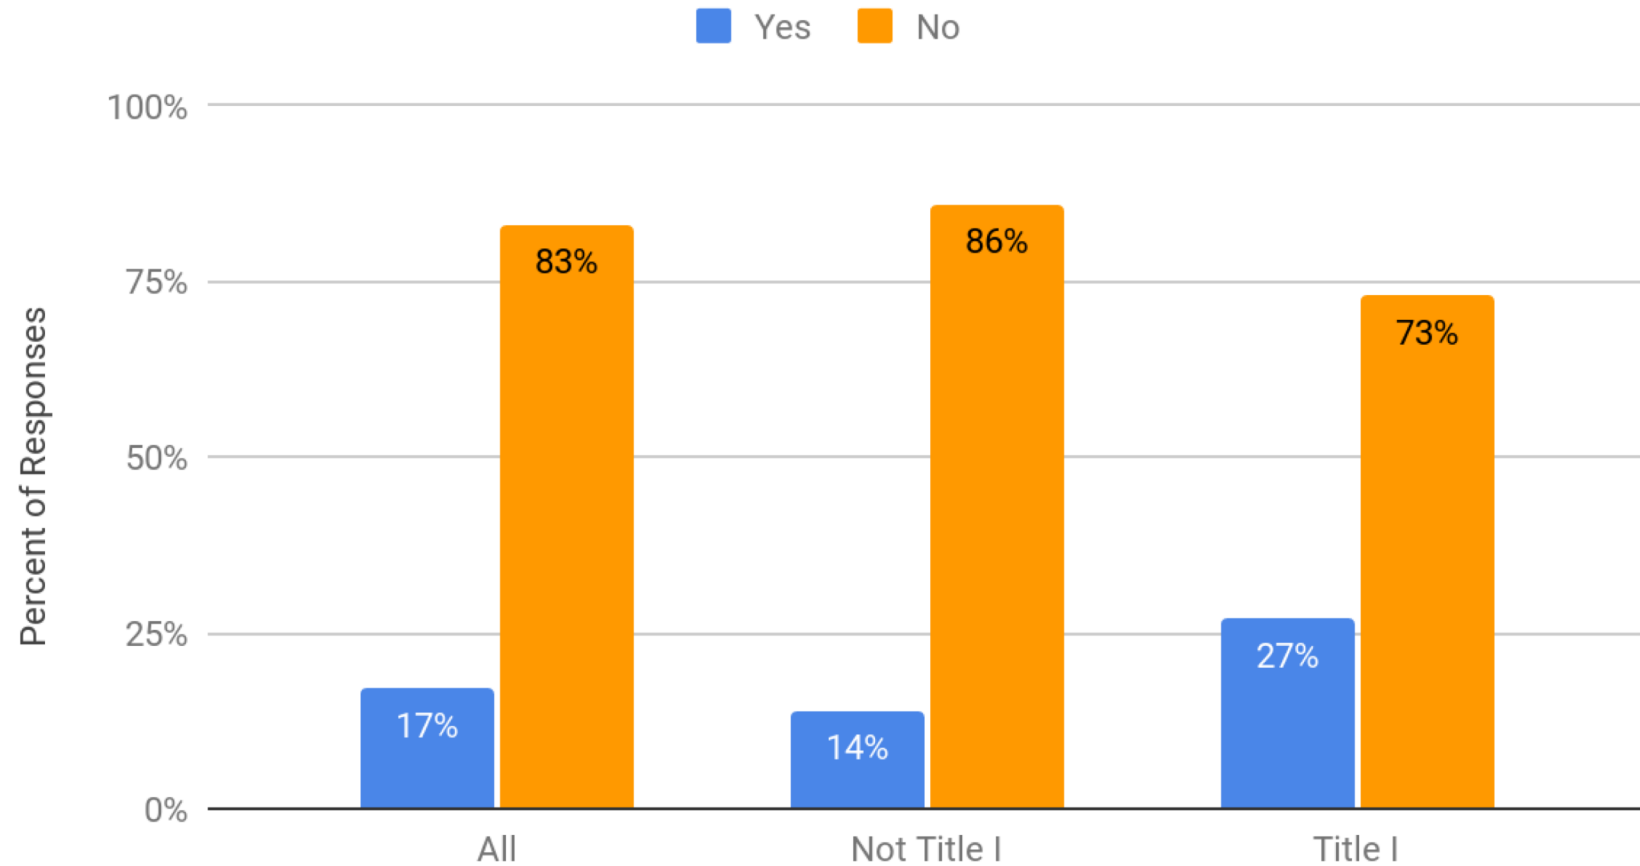

- Parents were asked to select all of the primary schools their children are enrolled.
- Independence Academy and Home School were included as choices.
- If any of the schools the parent selected was a Title I school, the parent record was counted as “Title I.” No high schools are Title I.
- If only non-Title I schools were selected or school was left blank, the record was counted as “Not Title I.”
- Title I status is missing if the survey was not finished.
