Dear Grades 2-5 Families,
Just a reminder, LPS is canceling all student classes and activities in our schools from **March 22** until further notice. Below is important information you will need about our remote learning plan.
Beginning **Monday, March 23** and continuing for two weeks through **April 3**, we are beginning remote learning. Students will have access to review learning opportunities on the LPS Remote Learning Site (lps.org/remote). These materials were also loaded directly on the LPS Chromebooks for students grades 2-5. All review work is optional for students, and will not be graded by teachers.
If schools are still closed after two weeks, Lincoln Public Schools will deliver new instruction via video available on our website (lps.org) or on public access television. The TV schedule will be available on lps.org. There will be at home activities in addition to the video lessons. Teachers may also use LPS Google Classroom to share additional materials. More information will be coming from your schools in the following weeks.
Thank you for your patience and understanding.
