Dear Middle and High School Families,
Just a reminder, LPS is canceling all student classes and activities in our schools from **March 22** until further notice. Below is important information you will need about our remote learning plan.
Beginning **Monday, March 23** and continuing for two weeks through **April 3**, we are beginning remote learning. Students will go to their individual teacher's Google Classroom to find review learning opportunities. Some of the same materials will also be available on the district remote learning site (lps.org/remote). All review work is optional for students, and will not be collected or graded by teachers.
If schools are still closed after two weeks, teachers will start delivering new instruction in their Google Classroom. Beginning **April 6**, many courses will pick up where they left off at the end of the third quarter. Remote learning for students enrolled in Advanced Placement, the International Baccalaureate Program, and eLearning courses in high schools will begin **March 30** and students will receive further communication from their teachers.
Additional information will be coming from your school.
